

PREVENT CLOGS

COLLECT FOGS

*Fats, Oils, & Greases
(FOGS)*

**AVOID CLOGGED DRAINS
AND SEWER BACKUPS**

Fats, Oils, and Greases solidify, slow sewage flow, and cause clogs in the pipes where it can't be seen until it's too late.

- Reuse a soup or vegetable can to collect grease from pots and pans. After it hardens, place the can in the trash.
- Use paper towels to wipe off plates or pots; toss paper towels in the trash.
- NEVER put fryer grease or oils in a sink or any other drain.
Use a waste oil recycler for large quantities of oils and grease.

RESPECT THE DRAIN

USE YOUR BRAIN

Know the FATS, OILS, & GREASES (FOGS) in your kitchen. They come in many forms:

- * *Butter, margarine, lard*
- * *Salad dressings, vegetable oil, shortening*
- * *Bacon grease and other animal fats*
- * *Cheese, soup, gravy, and cream sauce*

Never dump FOGS in a drain in your house or a storm drain in the street!
